

RTE Advanced Development Awards

October 17 – 19 2017 Prague | Czech Republic

Competition 2017

With the creation of its RadTech Europe Awards for advanced developments competition, RadTech Europe provides winners with a prestigious sales and marketing tool: a hallmark that signals to customers the winning company's contribution to manufacturing excellence achieved through the use of UV and EB radiation curing technology.

Entry examples

The markets and applications for UV/EB technology are many and diverse. Listed below are typical examples. The number of entries per company is unlimited as long as each entered product has been manufactured using UV/EB Technology.

- Labels
- Glass & Glassware
- Folding Cartons
- Wire & Cable
- Flooring
- Electronics & Optical CD/DVD
- Fibres
- Flexible Packaging
- Pipes & Metal Sheets
- Automotive Components
- Medical & Cosmetics
- Laminating
- Composites

Entries eligible for Awards must have been manufactured using UV or EB curable inks, coatings or adhesives and/or produced in any printing, manufacturing or construction application that uses radiation curing technology.

The Awards Competition targets all sectors of industry and will culminate in an awards ceremony during the RadTech Conference at the Clarion hotel in Prague, Czech Republic. Here entrants will have the opportunity to see and hear about new developments in UV/EB curing technology.

Entries

Work submitted will be judged on technical achievements which can be classified as the most innovative use of UV/EB Technology. In the case that submitting an entry by post is not possible due to size or other reasons, RadTech Europe will accept a photograph along with a detailed description of the entry.

Entries should be submitted upon receipt of this form.

Closing date for entries: 1 September 2017

**Free of charge
entry!**

Please complete the entry form on the other side of this flyer and send it with your entry, preferably including additional information on your entry to:
RadTech Europe, PO Box 85612,
2508 CH The Hague, NL

RadTech Europe gratefully acknowledges the support of the sponsors of the awards in furthering the advancement of UV/EB curing technology and promoting the activities of our organisation.

RTE ADVANCED DEVELOPMENT AWARDS ENTRY FORM 2017
